Michel Bows Out To Upset League Plans

The withdrawal of Michel from ABC-M League play for this season has thrown the league and its officials upside down, official word arriving here on Wednesday morning following a full day of rumors Tuesday. Correspondence from Michel as late as last Friday indicated they definitely would be in the league though up to that time they had been having difficulties in organizing and lining up players.

The withdrawal of the Michel club, following close on the heels of the release of the season's schedule will necessitate drawing up of a new schedule as soon as contact with all other league clubs has been made and the situation discussed.

Last season the league operated with five teams, and this season, with the addition of Medicine Hat, it was expected the additional two home games for each club would be sound financially.

Opinions of all clubs will be asked in regard to a new schedule which it is expected will not be ready until the week-end at the earliest.

One suggestion has been doubling of all league games with each team playing each other team eight times, four at home and four on the road. This suggestion, though certainly giving more hockey games, would also entail doubling the amount of travelling and expenses incurred, a factor doubtless each team in the league would be opposed to.

Michel Players To Fernie

It is rumored hereabouts that at least three Michel players will be turning out with the Fernie Rangers, who have been experiencing difficulty in coming up with enough players following the loss of at least five from last season's lineup. Fernie have always been very strong league contenders and the addition of these players should at least partially offset player losses from last season.

Long Time Resident Passes

Death claimed a long-time resident of Coleman in the person of Leon Ballak, 54, who died in the Crows Nest Pass Hospital on Monday, after a long illness.

Born in Ustie, Slovakia, deceased came to Canada in 1926, settling in Coleman.

He worked as a miner in the McGillivray mine until 1941, when he transferred to International mine. He worked here until his retirement in 1954.

He was a member of the Slovak Society, First Catholic Slovak Union, Holy Ghost Catholic Church, and the U.M.W.A.

He is survived by his wife, Veronica; two sons, Roger and Richard; four daughter, Marjorie and Candis; Coleman; Frances, of Red Deer; Pearl, of Calgary; three brothers and two sisters in Slovakia.

Funeral services were conducted from Holy Ghost Catholic Church on Saturday at 10 a.m., with the Rev. Father Denis Fleming officiating. Interment was in the Catholic cemetery.

Vicary Creek Mine Closes for Winter

The Vicary Creek Mine of the Coleman Collieries has ceased operation for the winter months. It is not known at this time when the mine will reopen. The closing of this mine has laid off 14 men, but it is expected that they will be rehired shortly.

Council Appoints New Fire Chief

Town council last week appointed Assistant Fire Chief H. Zak, Jr., as the new fire chief, replacing J. Finucan, who tendered his resignation due to pressure of his job as town foreman.

Mr. Finucan's resignation was accepted with considerable regret by the council.

The business of appointing a new assistant fire chief will be left to the brigade members.

Other business to come before the town fathers was the television contract proposal tendered by Purcell and Sons.

The council was favorable to the proposal and will meet with council of Blairmore and Bellevue to discuss plans to finalize the contract.

Council discussed the municipal convention proposals as put forth by Prov. Treasurer Himman.

Mr. and Mrs. W. Hoggan Celebrate 40th Wedding Anniversary

Mr. and Mrs. W. Hoggan were pleasantly surprised on Sat. Nov. 23 when a number of relatives and friends gathered to help them celebrate their 40th wedding anniversary.

After an enjoyable evening lunch was served Mr. and Mrs. Hoggan cut a beautifully decorated cake. Mrs. Jack Rogers then presented them with a gift from all present.

Mrs. E. Krywolt also presented her mother and father with a gift from their immediate family. Mr. and Mrs. Hoggan thanked everyone for these gifts and also for the lovely surprise.

Mr. and Mrs. Hoggan were married in Coleman on Nov. 24, 1917 by Rev. D. K. Allen and were attended by Mr. and Mrs. Chris Rogers who were also present.

Mr. and Mrs. George Hoggan and daughter Wendy of Prince George B.C. also surprised the former's parents by arriving in time for their anniversary.

Non-Attendance Forces Cancellation Nomination Meeting

Non-attendance by members of the Coleman Legion on Saturday, November 23rd forced President J. Kulig to postpone the annual meeting held to nominate candidates for branch office for the year 1958.

Mr. Kulig stated that a meeting would be held in the early part of December and that he hoped that members would make a concerted effort to attend this very important meeting.

He also stated that a St. Andrews Night would be held in the Legion's clubrooms on November 30th a social event is planned.

Legion Plans New Dart Tournament

A novel plan for members of the Legion men's division of dart players will go into operation on Saturday, November 30th for turkeys and chickens.

According to information this is how it will work—

On each and every Saturday from November 30 on a dart tournament will be held with the first and second place winners receiving a turkey and chicken respectively.

Vicary Creek Coal Impresses Japanese Delegation

Thirteen Japanese delegates representing over 80 per cent of Japan's pig iron industry and various Japanese steel companies sparked a new hope in Coleman Friday when the party arrived and were taken on a trip to Coleman Collieries' new development, the Vicary Creek mine, which is a producer of high grade bituminous coking coal.

Heading the Japanese mission were Hiroshi Ono, of the marketing section of the Nippon Steel Tube Co. Ltd.; Kazuyoshi Yokoo, the chief of the fuel section of the Yawata Iron and Steel Company Ltd.; Fujio Ohashi, chief of the fuel section Fuji Iron and Steel Co. Ltd., and Tetsuro Abe, chief of the fuel section of the Nippon Steel Tube Co. Ltd.

Accompanying the mission were David H. Sutherland of the D. H. Sutherland and Co., exporters and importers and sales agents of Portland, Oregon, and M. Farrell, exporter of coal from Portland, Huxley, New South Wales.

The mission party was taken on a visit to the Vicary Creek mine some 13 miles north of Coleman. The men were taken right into the face of the mine where they saw the clean, high grade coking coal. The men were surprised to learn that the known reserves of the mine extend some nine miles north of the entry and the seam varies in thickness from 16 to 40 feet. It is estimated the first mile of coal would yield some 25 million tons while the estimated reserves are believed to be over some 500 million tons.

After viewing the mine which so far has only produced some 5,000 tons of coal as the entry has only gone into the mountain about 500 feet, the men visited the Coleman Collieries International tipple.

It was pointed out here that the tipple could put out over 2,500 tons of cleaned coal every eight hours and it necessary another tipple at the McGillivray mine of Coleman Collieries could match this output. The Japanese visitors appeared to be very favorably impressed with the type of coal and quantity available. On their return to town the men were entertained at a banquet where several short talks were heard.

Mayor Frank Ambussat extended a warm welcome to the visiting officials and voiced the hope that satisfactory business would result between the Japanese steel firms and the Coleman mines.

Following the luncheon Hiroshi Ono, standing against a backdrop of the Japanese and Canadian flags addressed the group. Mr. Ono said: "As representatives of the steel mills in Japan and 80 per cent of the pig iron production, we have come to Canada for the purpose of investigating in detail the possibility of buying Canadian coal. The subject of buying Canadian coking coal has been receiving our consideration since June of this year when your government made a proposal to a Japanese steel mission touring Canada at that time."

However, sufficient time was unavailable on that occasion to discuss this question but upon the return of the mission to Japan, the importance and possibility of buying coking coal became a matter of eager concern to the Japanese iron and steel industry, necessitating a further technical study of various problems. Our principal object will be to determine whether or not Canadian coal is suitable to the blast furnace operation by the Japanese iron and steel industry; what consistent rate of supply can be maintained in the future; can a consistent quality standard be maintained; what merit value does Canadian coking coal have with other coking coals imported by Japan and the corresponding relative price. We have discussed these problems with your federal and provincial government."

During the luncheon, Mr. Farrell addressed the delegation, stating that Canadian are bound to further the sale of Japanese goods in this country. Since Japan is in need of Canadian and American dollars and with Japan

purchasing Canadian goods and raw with the possibility of a good coal market developing, Mr. Farrell pointed out the great importance of Canadians purchasing Japanese products.

He felt that with the growing coal industry in Alberta which uses a great deal of steel tubing and pipe, arrangements should be promoted to use Japanese products in return for Japan using Canadian coal.

D. H. Young, general manager of Coleman Collieries, supported Mr. Farrell's statements, and heartily thanked the visitors for the interest they were showing on their visit to Coleman.

In a statement David H. Sutherland, exporter and importer of coal from Portland, said that so far some 40,000 tons of coal have been shipped from Canada to Japan and that another 60,000 tons will be shipped.

Legion To Hold Turkey Bingo

A good crowd was in attendance at the Legion clubrooms on Friday evening when the regular bingo was held.

No one was able to take home the \$25 Jackpot. This will make the Jackpot at the next bingo on December 6th \$50. to be won in 55 numbers.

Mrs. E. Campbell was winner of the Jackpot consolation.

The bingo chairman R. Parry announced that at the next two bingos being held on December 6 and December 20, turkeys will be put up as prizes.

So come on everyone and win a turkey for your Christmas dinner. Other lucky winners for the evening were:

Pillowcases, Mrs. H. Ash, Towels, W. Cehibi, Ladies' cosmetic set, Mrs. A. A. Getman, \$5 cash, T. Rose, Camera, A. Getman, Gas, Mrs. M. Joseph, Men's toilet set, Mrs. G. Clarke, \$5 cash, Split by W. Ford and Mrs. R. Crippen, Tablecloth, A. Anderson, Consolation winners were Mrs. M. Taje and D. Johns.

Winners at St. Alban's Whist Drive

The winners at the St. Alban's Whist Drive held on Mon., Nov. 25 are as follows:

Ladies: 1st, Mrs. I. Spievak 7 lb. Ham, donated by J. Anderschak. 2nd, Mrs. N. Lowe, \$25.00 Dry Cleaning donated by Lethbridge Laundry. 3rd, Mrs. M. Holstead, \$25.00 Dry Cleaning, donated by Lethbridge Laundry.

Mens: 1st, H. Zak, Jr., Box of Playing Cards. 2nd, Mrs. J. Kubica, \$25.00 Dry Cleaning, donated by Lethbridge Laundry. 3rd, Mrs. E. Clarke, pair of Men's Sox.

The next whist drive will be held on Wed., Dec. 4 at 8 p.m. in the Parish hall.

First Coleman Cub Pack News

Column by Kenneth Murdoch

First star test number ten is safety rules, here are the first five:

1. Don't walk or play on any traffic roadway.
2. Stop look and listen before attempting to cross the roadway. Make sure the road is clear both ways.
3. In towns or cities cross only at intersections or marked crosswalks.
4. Cross at a steady pace, don't run or change your direction of travel.
5. Pass other people walking on the crossing as well as on the sidewalk to the right.

Cashing Bigger Checks Than Ever

TV AND FILM STAR Abbe Lane, and her famous hand-leader husband, Xavier Cugat (left), have returned from their travels in Europe. She is to star in the new Broadway musical, "Captain's Paradise." The overland American Express Travelers Cheque was presented to them during a radio interview in recognition of their successful personal appearance tour in Spain and Italy, where real-life travelers cheques made their travel easy. And to convey a truly international flavor, the prominent show business couple took along their French poodle, Suette, and their Mexican Chihuahua, Cachita.

Of Many Things

(By Ambrose Hills)

Snap Into It

Two hours from now I'll catch a train. Because I must be away from home for five days, I've had to work like blazes to get caught up a bit ahead of schedule. Except for this column, everything had been completed.

My brief case is in order, my suit case packed, my office desk is clean as a bone. Am I all pipped out because of this effort?

Not at all.

Surprising thing is, I feel like a million.

For three days before my departure I fretted about the maze of things that had to be done, the details to be looked after. Made me dizzy thinking about it. Then, a day before the deadline, I said to myself, "Look, Hills, you'd better snap into it."

It was amazing how quickly

things got done when I stopped stewing and started working. As each asserted item was cleared away, I felt a new release and a sense of energy. The things that tire you most are the things left undone.

So I've made a resolution. I'm never going to let myself procrastinate again. I'm going to start a little ceremony each morning when I shave. I'm going to tell that face in the mirror to snap into it.

Ever marvel at how much work one man can do?

They say that John Diefenbaker has gone as many as 41 hours without taking to his bed - satisfied himself with a few cat naps now and again. Yet he looks spry - or than when he took on the tremendous job of Prime Minister.

Louis St. Laurent was another prodigious worker, yet he always gave the impression of being in command of the situation. The hard worker is in command; it is the

procrastinator who frets and stews.

I know that I am a procrastinator. Mind you, most of my friends and acquaintances think I work like a dog; and perhaps, by normal standards, I am a hard worker. Yet I know, through experience, that I could get through tons more work and feel better for it if I extended myself. To be blunt, most of my friends are tremendously lazy; I'm just a little bit lazy. I mean, I used to be lazy.

From now on, I'm going to snap into it every day. I feel better when I'm on top of my work. The more I do the peppier I feel. Right at this moment, I feel positively vigorous.

Want to feel the same way?

Then, my friend, snap into it! You'll know what I mean in a couple of hours.

On The Hockey Front

Coleman Grands, last year's champions, are practising hard for their exhibition game with Lethbridge Allstars to be staged in the Blairmore arena on Saturday, November 30th.

This is Blairmore's official opening of this season's arena activities. The Crows Nest Pass band

will be in attendance.

This will be your chance to see how our boys stack up for the coming league play.

Speaking of league play, it is expected a new schedule will be drawn up by league officials in a few days after the Michel withdrawal from the league.

Following is how Murray Wheaton, Cranbrook sports writer, views the whole matter. Lots of things have happened on the hockey front the past few days. Firstly, the Medicine Hat Cantalinas split their two-game exhibition with Cranbrook Selkirk - Cranbrook won the first tilt 8-5 with the Cants taking the second, 10-7.

The second undoubtedly most discouraging event with the withdrawal of the Michel Coal King from league play at least for this season, and possibly longer, if a satisfactory amount of explaining isn't forthcoming.

This withdrawal has really thrown a wrench into the works and will necessitate the drawing up of a new schedule which means a lot of needless work and expense for the officials and the league.

The top of it a local business establishment had 1,000 of these schedules neatly printed up and was handing them out for the convenience of fans when the bomb burst.

The part that isn't too obvious to me is why did Michel wait until just three days before the league opener to pull their disappearing act. There was talk early last fall of them either joining with Coleman or Fernie as they didn't have enough players to form a strong enough club. However it seems that they just held on in hope that some miracle would happen and some players would fall their way. A letter received here last Friday from that club said that they definitely would be in the league although they were experiencing a few difficulties getting organized.

Less than a week later it is officially announced that they would not be in league play.

From here it is hard to see how any individual connected with the club could not tell whether or not they had enough talent available at least a month ago. They knew what they had on hand last season, any possible newcomers in the area and what young players might be able to catch a place on the club. Somebody guessed, but had, much to the disgust of everyone connected with the league.

The only way to overcome a similar occurrence in the future is to have each club post their good faith bond of \$100 at the annual meeting which is usually held early in the fall. This idea of leaving it to be paid before the league starts leaves too much time for doubtful ones to be things in known.

If a club has to post a \$100 bond at the annual meeting in October then they are going to be mighty sure they will be able to pay a team for league play rather than face the possibility of losing that deposit.

Apparently this idea of an earlier deposit date was made by a local representative at a meeting last year but other clubs wouldn't go along with it... maybe they will now?

About a week ago I thought I had the situation well in hand as far as predicting the standings of the teams at the close of the league schedule.

This week, with so much having gone on, doubts are very prominent in my mind but I'll give it a whirl and clock at the end of the schedule come late next February. For first spot it will have to be the Medicine Hat Cantalinas and though the Selkirks did give them all they could handle in the two games last week-end the Cants seem to have a bit too much polish which over the long haul will go a long way to seeing them through.

For second place I'll take the Selkirks, mainly on the strength of their showing last week-end. They have a number of rough spots to iron out, need lots of work on a power play and also anti-power play hockey but that will come with a few practices.

In third place the race narrowed down to Coleman and Great Falls. The former club is much the same as that which won the league title last season and they certainly will be a club to watch. On the other hand Great Falls, though losing Jack Yost, have reportedly picked up a forward line from Minnesota which is supposed to be pretty fair, so from here it's Great Falls for third place and Coleman for fourth.

This leaves only Fernie and only the fifth and last spot, and what

with their showing last season and the addition of three Michel players this season last place is a hard spot in which to place the Rangers, but there seems no other choice.

That's it - Medicine Hat, Cranbrook, Great Falls, Coleman, and Fernie. What are the odds?

Manning Supports TB Seal Campaign

Mr. R. E. Ashburner, president of the Alberta Tuberculosis Association, announced today the completion of weeks of preparation by voluntary committees throughout the province with the mailing, during the past few days, of Christmas Seals on the opening of the campaign to raise \$225,000 to aid in the eradication of tuberculosis.

This amount is needed to meet the budgetary requirements of the Association during the coming year, which includes case-finding, rehabilitation of TB patients, nursing services, welfare and health education. The campaign in Lethbridge is sponsored by the Lethbridge-Kinsmen Club.

In commenting on the campaign Mr. Ashburner said "During the past year the Association has expanded operations to a considerable extent, particularly in the case-finding field. The belief is held by all too many people that tuberculosis is no longer a serious health problem. Unfortunately, the truth is rather the reverse, as there is actually an increase in the number of new cases being discovered. During 1956 being one new active case for every 2240 of our population while more than twice this number were found to have the disease, although inactive at the

time.

These people will require periodical examinations."

Mr. Ashburner said "The worse centres of infection are, generally speaking, in the outlying areas hard to reach with health services, and we have doubled our survey potential in an effort to seek out the unknown TB, and we are hopeful that this has, at least partially, led to the greater number of new cases, rather than a serious spread of infection. However, the new cases turning up in our clinics recently opened in the City Halls in Calgary and Edmonton, lead us to believe that the incidence of the disease may be more widespread than formerly recognized. These expanded services have added substantially to our budget, and it is more necessary than ever that we reach our objective in the forthcoming Christmas Seal campaign, which is our only source of revenue."

In connection with the Christmas Seal campaign, Mr. Jack Gault, chairman of the Lethbridge-Kinsmen Club TB Christmas Seal Sale committee, said "This is the 50th annual Christmas Seal sale in Canada. Over the years we have seen tremendous progress in the control of tuberculosis, much of which may be attributed to the work of the voluntary agency working in close co-operation with the Departments of Public Health and the medical profession.

"The constant battle against the disease in Alberta must be maintained with all the resources at our command and we know that the people will support our campaign by buying and using Christmas Seals."

ALBERTA EDUCATIONAL SERVICES

CO-OPERATION IN SCHOOL SUPERVISION

Under the Chief Superintendent of Schools, the welfare of education is maintained by continuous co-operation with local school boards. A forward step in rural education was made by the Alberta Government when the province was organized into 52 school divisions and 7 counties, thereby permitting more modern schools and more effective teaching through the centralization of rural school districts. Close liaison is maintained with school boards through 58 provincially appointed School Superintendents, one of whom is assigned to each school division. These men are responsible for working closely with the school board, providing them with advice, and interpreting for them the educational policies of the provincial government. The Superintendent also works closely with the principals and teachers in his school division. Direct supervision and counsel to high school teachers is regularly provided by qualified High School Inspectors who visit all classrooms in the Province from grades 10 to 12. As well, special supervisors are provided to supervise instruction in Home Economics and Industrial Arts in all schools where these courses are taught.

ALBERTA SCHOOL BROADCASTS

One of the most popular government services is the School Radio Broadcast service maintained by the Department of Education which has grown to the point where more than 50% of all classrooms, from grades one to nine, listen regularly to these informative, interesting radio programmes. Prepared under the direction of the School Broadcasts Branch, they comprise instruction on social studies, literature, current events, speech, music, and so on, based directly on the curriculum. Teacher guides are published to assist in preparing classes for each educational broadcast instruction.

TEACHING BY AUDIO-VISUAL METHODS

The Provincial Government maintains an Audio-Visual Aids Branch from which films are provided to Alberta Schools, free of charge at the request of the School. The library contains some 1200 carefully selected films, which cover a wide range of approved curriculum topics for Alberta Schools.

THE ALBERTA SCHOOL FOR THE DEAF

Another Alberta government service in special education is the modern residential school for the deaf at Edmonton. It provides academic and semi-vocational instruction for Alberta's deaf children between the ages of five and eighteen; all costs of which are borne by the Provincial Government.

THE PROVINCIAL INSTITUTE OF TECHNOLOGY AND ART

The Institute is located at Calgary under the direction of the Department of Education and is affiliated with the University of Alberta. The purpose of the Institute is to train men and women for semi-professional positions as assistant engineers and technicians in industry. Courses are terminal and provide the necessary theoretical knowledge and skills for students to qualify, ultimately, for responsible, supervisory positions.

JAPANESE VISIT RAISES HOPE OF MARKET FOR ALBERTA COAL

(Calgary Herald Staff Reporter)

CALGARY, Alta. — The prospects of a badly-needed new market outlet for Alberta coal was seen here Tuesday (Nov. 19) when a team of Japanese business men arrived at McCall Field.

The visitors represent the three largest steel mills in Japan. Their purpose in coming here is to investigate the possibility of buying Canadian coking coal.

Speaking through an interpreter, the Japanese delegation said at the airport that pre-war production of pig iron in Japan has been surpassed in recent years.

To meet the needs of the booming iron and steel industry in Japan, they said, Japan needs more coal. A good deal is being imported and Alberta might be a new source.

They were met at the airport by William C. Whitaker, managing director of the Coal Operators' Association of Western Canada, and other coal industry officials.

Wednesday they attended a series of conferences with Alberta coal men to find out what this province has to offer.

See Operations
On Thursday and Friday they visited the Crow's Nest Pass area to see Canadian coal mining operations and Canadian coal at first hand.

The interpreter for the Japanese told the reporter on Tuesday night that pig iron production "a basic industry" was "nothing" in Japan at the end of the Second Great War.

Three years ago the delegation said, production amounted to approximately 4,000,000 tons. The Japanese hope that this year's output will be around 6,700,000 tons.

To fuel such industrial output, the Japanese said, 8,000,000 tons of coal are needed each year.

China Sells
Japan itself will account for 4,400,000 tons of that requirement. The remaining 3,600,000 tons is being imported. Twenty per cent of the imports come from Communist China.

Looking to the future, the Japanese see a need for far more than 8,000,000 tons a year, and this is why the trade group is in Calgary.

"To meet our expanding needs, we are trying to search for additional sources of supply," a spokesman said.

What the Japanese want is good quality coal at reasonable cost.

The members of the delegation conceded that Japan is carrying on trade under existing circumstances with Red China because of its "close geographical location."

Because of China's close proximity to Japan, they said, Japan was "naturally interested" in trade with the Red-ruled country.

But the delegation was here on a "coal mission" and it was "not the purpose of the mission" to consider its members' views on trade behind the Iron Curtain.

While Japan at present buys a substantial amount of coal from China, a spokesman related, the quality of that coal is poor, and presents another reason why other sources are being investigated.

In a statement issued on their arrival, the Canadian government made a proposal to a Japanese steel mission touring Canada.

Lager Concern
With the return of the steel mission to Japan the statement says, the "importance and possibilities" of buying Canadian coking coal becomes "a matter of eager concern" to the Japanese iron and steel industry.

The statement lists the present delegation's purposes as follows: "Our principal object will be to determine whether or not Canadian coking coal is suitable for a blast furnace operation by the Japanese iron and steel industry; what consistent rate of supply can be maintained in the future and can a consistent quality standard be maintained; what merit value does Canadian coking coal have in comparison with other coking coals imported by Japan and the corresponding relative price."

Ottawa Visit
In Ottawa earlier this month, the delegation met with members of the Japanese embassy and discussed the Canadian coal reserves pictures with the Canadian department of mines and members of the federal coal board.

More than 80 per cent of a child's school work is done up close.

"A child's eyes not fully developed at birth. They grow with him and are not fully mature for many years. If they fail to grow properly they must be guarded against the strain of too much close work."

"Moreover, eyes that are strained result in poor school work and lower marks," he said. "Eyes should be regularly examined," he said, "with the full battery of tests that reveal every possible defect—not just the defect of short-sightedness."

"During See Better—Learn Better Week," he said, "we are asking parents to sit down with their children while they do their homework, and watch for any signs of eyestrain that may, up to now, have gone unnoticed."

Legion and L. A. To Hold Joint Christmas Tree
The Coleman branch of the Canadian Legion and the Ladies' Auxiliary plan this year to hold a joint Christmas tree and under charge of Legion and Auxiliary members.

This will be held in the Legion hall on Sunday, December 15 at 2 p.m.

Flus will be shown and pop and refreshments served.

Santa Claus will appear and give all the children their treats as usual.

All Legion and Auxiliary members eligible to take children to this party are asked to let the members know number of children so that final plans can be made.

Please have this information in before November 30th.

Citizenship Day Set December 6 At Blairmore
The Crow's Nest Consolidated School District board held a meeting in the board room at the Frank school when it was announced that a Citizenship Day would be held in the Blairmore Elks hall on December 6th.

The affair, a special sitting of district council, will commence at

10:30 a.m. and will be presided over by Chief Judge E. B. F. of Lethbridge, and other officials of district court.

Some 20 candidates will be presented with their Canadian citizenship documents before an audience including students of the Coleman, Bellevue, and Blairmore high schools.

Speakers will include students, school board officials and members of the town council.

Selkirks in Convincing 9-2 Win Over Fernie

Cranbrook Selkirks, though minus four regulars, outplayed and outshot the Fernie Rangers in Fernie last week to run up a convincing 9-2 win.

Fernie, in their first game of the season couldn't cope with the speed and conditioning of the Selkirks, who dominated play throughout the loosely played game.

Andy Drolet and Denny Nelligan scored hat tricks for the Selkirks with Harvey Nash tallying two and Mickey Ryan picking up a singleton.

Alberta Coke Coal Resources Impress

"It is too early to predict accurately the outcome of the Japanese steelmen's visit to Canada," said William C. Whitaker, managing director of the Coal Operators' Association of Western Canada said Wednesday night. "It can well be beneficial both to the Alberta coal market and the Japanese steel industry, but many details remain to be ironed out."

"We've been brush cleaning today," is how Mr. Whitaker described top level discussions between Canadian coal industry executives and three Japanese representatives of three steel firms that produce 80 per cent of Japanese steel.

Take Coal Study
Wednesday's sessions were devoted to an exchange of ideas which included an initial study of Canada's coking coal potential and need of the Japanese steel industry for an additional eight million tons of metallurgical coal to increase its pig iron production from 6,700,000 tons to 12 million by about 1962.

Most important results of the talks, said Mr. Whitaker, is the delegation's realization that Canada has the supplies to meet their needs and their statement that, after tests are made of Canadian coal, if the quality suits for blending with Japanese coal and the price is right their companies will consider seriously buying in the Canadian market.

The delegation, headed by Tetsuro Abe of Nippon Steel and Tube, emphasized through their interpreter that this was a survey trip.

The trip was the result of only recent information that coking coal is available for export in Canada and the U. S. and that bulk loading equipment would possibly be established at Vancouver in the near future.

The Japanese will probably call for one ton test shipments from various mines and after extensive form research indicate further needs and price suggestions.

Nothing Certain
Mr. Whitaker warned that the delegation was composed of "top-flight technicians who know every angle and that their visit does not automatically mean relief for Alberta's hard-pressed coal market. They will buy for price as well as quality," he stated.

Mr. Whitaker feels that it would take five years before the full impact of the Japanese visit could be felt by the Alberta market but that a substantial coal trade could be developed with patience.

TOWN CHATTER
Eaks will double the score—they will take the Bombers by a touch down.

Well, that's what the sports boys were saying last week.

You could get a bet anywhere in town if you wanted to back the Bombers. Well, we were all fooled—those Bombers even fooled the Eaks.

The crying towels are quite evident this week, even got one myself.

The game was the Eaks until Miles made that costly fumble in the dying minutes of the fourth quarter Saturday night. It still could have been pulled out of the fire if time had not run out on the Eskimos when they were only nine yards from a touch down in the

first overtime period.

Well, that's the game. Pull for Winnipeg to keep the Grey Cup in the West.

A story from a local insurance agent's prospect:

"What I mean," explained the insurance salesman to a bewildered rural prospect, "how would your wife carry on if you should die?"

"Well," answered the farmer reasonably, "I don't reckon that's any concern of mine—so long as she behaves herself while I'm alive!"

Personalities IN THE NEWS

Mrs. M. Arbuckle and son Stephen of Fernie spent the week end visiting Mrs. Arbuckle's parents Mr. and Mrs. S. Panek.

Mrs. C. Westley was called to Fort Macleod last Thursday, her mother and father Mr. and Mrs. J. B. Fischer were involved in a car accident. We are pleased to report no one was seriously injured.

Mr. and Mrs. E. Hutton and family of Kimberley spent the week-end with the latter's parents Mr. and Mrs. J. Nash.

Mr. Henry Raymond is a patient in the C. N. P. hospital. Friends wish him a speedy recovery.

Mr. Bill Plante of Red Deer visited with his parents Mr. and Mrs. J. Plante and family over the week end.

Jo Ann Misura entertained 19 of her juvenile friends on Nov. 12, the occasion being her ninth birthday. Games were enjoyed, paper hats, balloons and gaily colored streamers added greatly to the occasion. A dainty lunch was served including a candle decked birthday cake. All joined in singing "Happy Birthday Jo Ann" for which the honored guest thanked all present, also for the lovely gifts received.

Mr. and Mrs. J. Hanrahan, accompanied by Mr. J. Simpson of Fort Macleod, Miss S. Morency of Blairmore and Miss Helen Gill of Lethbridge, attended the Civil Service Convention held in Edmonton last week. Miss Morency was a contestant for Zone 8 Civil Service Queen.

Mr. and Mrs. G. Misura had as their guests recently, the latter's mother Mrs. M. Carmelo, also sister and brother-in-law Mr. and Mrs. John Seaman and daughter, all of Calgary.

Elk's Travelling Gavel to Fernie

40 members of the Coleman Elk's B. P. O. E. travelled to Fernie on Saturday evening Nov. 23 with the travelling gavel, D.D.G.E.R. Bro. J. Wavrean with his patrol team were in attendance for the installation of officers of the Fernie Lodge No. 81. Bro. M. J. Gordon Exalted Ruler of the Fernie Lodge welcomed the Coleman Lodge for such a wonderful turnout and stated it was the largest he had seen since he had been in office. Following the installation a

social evening was held. The Coleman Lodge arrived back in Coleman in the wee hours of the morning.

Coleman Nurses Successful in Exams

At recent examination held at the University of Alberta several Coleman girls were successful in passing as Registered Nurses. They were granted certificates which enabled them to register with the Alberta Association of Registered Nurses.

The successful candidates were: Margaret Wesko, Clementine Celli, Mary D'Appalonia, June Kilpanen, Mary Kolbus and Elizabeth Sikora.

In Memoriam

In Loving Memory of Mary Drew Who Passed Away November 17, 1953.

Dearest to us than words can tell, Was the one we lost and loved so well.

Her happy smile and cheerful ways

Are treasured memories of bygone days.

Ever remembered by her Husband Harry and Son Maurice.

"It Is Not Wisdom But Ignorance That Teaches Men Presumption"

(Author's Name Below)

Many firms previously unconnected with the medical world seek an opportunity to make quick money. They hire people to go from door-to-door to sell unknown brands of vitamins.

Unfortunately, these door-to-door salesmen have no knowledge except what they memorize from their canned sales pitches. Why gamble. We pharmacists have the training to properly answer your vitamin questions.

Before obtaining any vitamins from these door-to-door opportunists, check their prices for unknown makes with what we charge for products of the reliable firms physicians endorse. Despite their glib promises, our prices are usually much less.

YOUR PHYSICIAN CAN PHONE
3619 or 3981

WHEN YOU NEED A MEDICINE

A great many people entrust us with the responsibility of filling their prescriptions. May we compound yours?
